WORM CASTING TEA

AN ALTERNATIVE APPLICATION

WORM CASTING TEA

Castings Tea Recipe

5 gal brew

- 3 pounds of worm castings
- 5 gallons warm water (water temperature should be around 70°)
- ¼ cup unsulfured molasses

Aerate for 24 hours keeping out of sunlight. Be sure to use the brew within 6 hours of brewing.

- ✧ **Castings tea can be used as a spray or drench**
- ✧ **5 gallons of castings tea can cover up to 1 acre**
